KOBRA

WALK-BEHIND SWEEPER

Quick and efficient cleaning.

The Kobra walk-behind sweeper is ideal for quick and efficient sweeping of small and medium sized areas.

The battery version is both quiet and emission-free, making it particularly suitable for indoor applications.

The Kobra has a 550 mm main brush, which guarantees a cleaning path of 780 mm, and an hourly performance rate of 3.510 m²/h.

The PPL main brush, with mixed bristles, permits deep cleaning even in high dust environments or on uneven floors.

Thanks to the high capacity rear hopper and extremely efficient Multipocket Filter, made of polyester, the Kobra delivers clean floors with no dust residues (99.9% filtration capacity). This type of filter lasts longer and is low maintenance.

You will be surprised by just how much this machine offers compared to its contained price point.

DUST FILTRATION SYSTEM

Fine dust is filtered through a polyester bag filter, with a 99,9% filtration rate. This filter has a much longer life span than a traditional filter and can be easily cleaned via the built-in mechanical shaker.

DEBRIS CONTAINER

The rear debris container provides more uptime, it is high capacity and therefore reduces the frequency of stop and empty operations. It's also mounted on wheels and equipped with a handle for comfortable emptying.

LIFTING FRONT FLAP

The flap fitted to the front of the machine can be lifted when collecting bulkier debris.

MAIN AND SIDE BRUSHES

The main MultiBristle brush (with rows of mixed bristles) and the side brush are both easy to change when required.

FEATURES

- MultiBristle PPL main brush, with mixed bristles;
- PPL side brush;
- Traction lever;
- Chassis protected by impact resistant bumpers;
- Shockproof cover;
- Lifting flap for bulky debris;
- Hopper mounted on wheels;
- Adjustable handle;
- Handbrake;
- Multipocket Filter polyester bag filter, fitted with mechanical shaker.

OPTIONAL ACCESSORIES

- Class M filter;
- Dirt container lift-out baskets;
- Carpet cleaning kit
- Hour meter.

TRACTION

The traction is activated via a lever control on the handle.

CONTROL PANEL

The control panel is in an easy to reach position on the sweeper's cover. It includes controls and indicators for: the wet sweep filter bypass, side brush activation, battery charge indicator, ignition key.

ADJUSTABLE ERGONOMIC HANDLE

The handle adjusts to the height of the operator, offering improved comfort and maneuverability.

ANTI-SHOCK MATERIAL

The Kobra's body is constructed in a special anti-shock material to protect the machine from unwanted damage.

MULTIPOCKET FILTER

With an innovative structure, large filtering area and up to 99.9% filtration efficiency, the Multipocket Filter delivers clean air back into the environment and guarantees filter performance that lasts over time. The filter is also washable, resistant to water and oil, self-cleaning and easy to maintain.

VERSIONS

KOBRA EB - battery powered

APPLICATIONS

Industrial sites, construction sites, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping centers, logistics centers and contract cleaners.

SURFACES

Ceramics, marble, cement, concrete, linoleum, non-slip surfaces, tiles.

	KOBRA EB
CLEANING PATH with side brush	780 mm
CLEANING PATH with main brush	550 mm
HOURLY PERFORMANCE	3.510 m ² /h
FORWARD SPEED	4,5 km/h
DIRT CONTAINER VOLUME	40 litres
FILTER TYPE	Eureka Multipocket Filter
PRIMARY MOTOR	600 W
POWER SUPPLY	12V
WEIGHT	127 kg - inclusive of battery
DIMENSION with side brush (l x w x h)	1.555 x 835 x 980 mm

PLUS

ANTI-SHOCK COVER IN ABS MATERIAL / HIGH CAPACITY DEBRIS CONTAINER MOUNTED ON WHEELS WITH LIFT OUT BASKETS / LIFTING FLAP FOR BULKY DEBRIS / SIMPLE AND INTUITIVE CONTROLS / ADJUSTABLE HANDLE / MAIN BRUSH WITH CHEVRON PATTERN / WET SWEEP FILTER BYPASS / CARPET CLEANING KIT
