MANUAL SWEEPER

PICOBELLO

MANUAL SWEEPER

PICOBELLO 101

The Picobello 101 is a manual sweeper with a total cleaning path of 730 mm.

It can clean up to 2.190 m²/h and is therefore more than 10 times faster than sweeping with a broom.

The Picobello 101 combines PRODUCTIVITY and CONVENIENCE, and it can be used to clean any small or medium sized floor area.

PICOBELLO 151

The Picobello 151 is a revolutionary manual sweeper, equipped with a patented system which delivers complete dust control. This eliminates fine dust being raised into the air, which occurs when using any other traditional manual sweeper.

The Picobello 151 does not require motors, batteries, or cables, and therefore offers unlimited uptime.

In addition, this sweeper is completely silent and 100% eco-friendly.

ADJUSTABLE HANDLE

The handle can be regulated according to the height of the operator, guaranteeing comfort and efficiency.

ROBUST FRAME

The Picobello's steel frame is sand blasted and treated with an anti-corrosion coating, guaranteeing strength and resistance.

ROBUST HOPPERS

The robust front and rear hoppers are also high capacity.

ADJUSTABLE MAIN BRUSH

The pressure of the main brush can be regulated to achieve optimal sweeping results on any type of floor.

FEATURES

- 100% eco-friendly;
- Simple and versatile;
- Completely silent
- Agile in congested spaces;
- Complete dust control;
- Provides quick, low-cost cleaning;
- Suitable for use on uneven or external surfaces;
- Ideal for cleaning driveways, gardens, apartment buildings, sports facilities.

3 INNOVATION AWARDS

Verona, 2005 "Pulire" winning all categories.

Birmingham, 2013 "Cleaning Show".

Australia, 2013 at the exclusive "INCLEAN".

ECOVAC – WORKING PRINCIPLES

The lateral wheel of the sweeper in addition to activating the main brush, also activates a drive shaft connected to a fan. The ratio between the wheel and drive shaft creates strong suction, which picks up dust and channels it towards the filter. This manual sweeper with an integrated vacuum and filtration system, which does not require motors, guarantees simplicity, affordability and is an eco-friendly choice.

QR CODE PICOBELLO 151

SIDE BRUSH

Adjustable and impact resistant, the side brush is used to clean along edges and in corners.

ROBUST WHEELS

Large rear wheels provide excellent maneuverability and are mounted on self-lubricating bearings.

ECOVAC

The sweeper is fitted with a polyester cartridge filter, which is easy to remove for maintenance and washable. It filters and traps even the finest dust.
